Metropolis Collaborate.
Welcome to the team.

Tackable fabric partitions divide space and help to display information. Choose from Tayco's entire line-up of environmentally friendly panel fabrics.

Transaction tops are available in laminate and tempered glass, and facilitate the flow of information within team environments.

Metropolis Collaborate.

Where a common space yields uncommon results.

Furniture Ensemble

Flexibility

Metropolis Collaborate combines the sophistication of the Metropolis Collection with the organizational and planning capabilities of an office system. Offering 1-inch and 1 1/2-inch worksurfaces in an array of laminate colors, it's easy to complement the aesthetics of any interior. Similar to a systems product line, Metropolis Collaborate divides above worksurface space with tackable fabric, laminate, glazed, and accessory bar partitions, which range in height from 8-inches to 32-inches. Desired privacy levels and access to natural light is achieved gracefully.

Teamwork

Where casegoods act like a system, Metropolis Collaborate allows workstations to be clustered together in an open plan environment to create teams. Lower partitions help co-workers feel connected to each other, improving productivity. Transaction tops are available in tempered glass and laminate, and provide additional worksurface space when two or three heads are better than one.

Organization

A variety of overhead and under worksurface storage options allow work and personal items to be out of sight, but easily within reach.

Featured Station

Metropolis Collaborate fosters open communication between co-workers. Low partitions and transaction tops promote the sharing of ideas, while extension worksurfaces provide a location for impromptu meetings.

FEATURED CONFIGURATIONS

Finishes

Worksurface Laminate: White with matching vinyl trim

Storage and Gable Laminate: Tuxedo with matching vinyl trim

Fabric: 5033 Rococo Cressent

Handle Style: Manhattan

Handle Color: Brushed Nickel

A cantilever used in place of a gable to support worksurfaces removes obstructions and increases leg room.

Metropolis Collaborate's overhead mounted utility lamp provides individual control of task lighting in a workspace. Cables are neatly managed within the post.

Accessory bars increase the organizational capabilities of Metropolis Collaborate. Current documents and work tools are neatly kept and within reach.
