

tayco.
work well.™

Comfortable in any workplace.
Cosmopolitan.

Definitively Cosmopolitan.

Seasoned, smart and sophisticated.

Cosmopolitan is at home in any planning situation.

Its flexibility and infinite design possibilities allow it to adapt to environments calling for an open plan, private spaces and everything in between.

Cosmopolitan defines the criteria for all-encompassing office furniture systems.

Wide-minded.

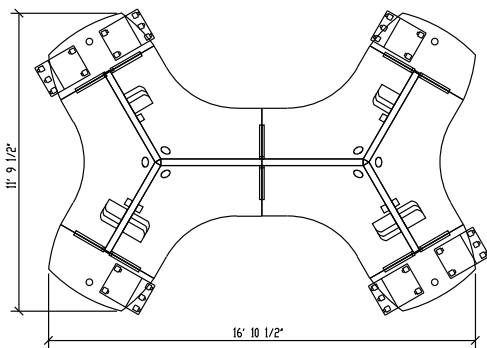

Been there, done that. There is no application that Cosmopolitan can't resolve. When needs change, Cosmopolitan changes with them, easily accommodating complex reconfigurations or simple aesthetic facelifts.

Well-dressed.

A refined palette of fabrics and finishes combines aesthetic appeal and sustainable materials, enabling Cosmopolitan to dress for any occasion.

World-wise.

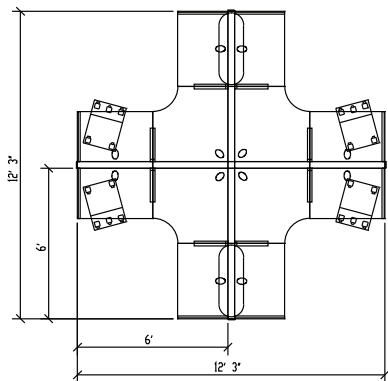

Cosmopolitan is conscious of its impact on the environment. Each component, process and material that makes up the system is carefully considered with the ultimate intention of reducing its environmental footprint.

Cosmopolitan and LEED environments.

MR 4.1/4.2 – Recycled content – 10% and 20%

1. Laminate worksurfaces:
Particleboard – 100% recycled content
Edge banding – 75% recycled content
2. Frame:
Steel – 25% recycled content
Plastic connectors – 75% recycled content
Aluminum – 70% recycled content
3. Panel fabric collection is comprised predominantly of 100% recycled polyester.

IEQ 4.1 – Low-emitting materials – adhesives and solvents

4. Water-based adhesives are used throughout Tayco's manufacturing facility.

IEQ 4.2 – Low-emitting materials – paints and coatings

5. Powder coat paint is used on all metal surfaces.

IEQ 4.5 – Low-emitting materials – systems furniture and seating

6. Cosmopolitan is GREENGUARD certified for indoor air quality with no restrictions.

IEQ 6.1/EA 1.1 – Controllability of systems – lighting/optimize energy performance

7. Task lights allow individuals to control their own lighting and use it only when necessary.

IEQ 8.1/8.2 – Daylight 75% and 80% of spaces

8. Low panels and glazed tiles allow daylight to reach all workstations, minimizing the need for artificial lighting.

IEQ 8.3 – Views for 90% of seated spaces

9. Panels lower than 42 inches allow access to daylight views, which decreases energy use, elevates productivity and encourages interaction among teams.

MR 5.1/5.2 – Regional materials

10. Tayco's manufacturing headquarters is located in Toronto, Ontario, Canada.

MR 6 – Rapidly renewable materials

11. Certain panel fabric options are 100% polylactide, which is made from cornstarch, a rapidly renewable resource. Certain seating fabric options contain bamboo, a rapidly renewable resource.

EA 1.3 – Optimize energy performance, HVAC equipment efficiency

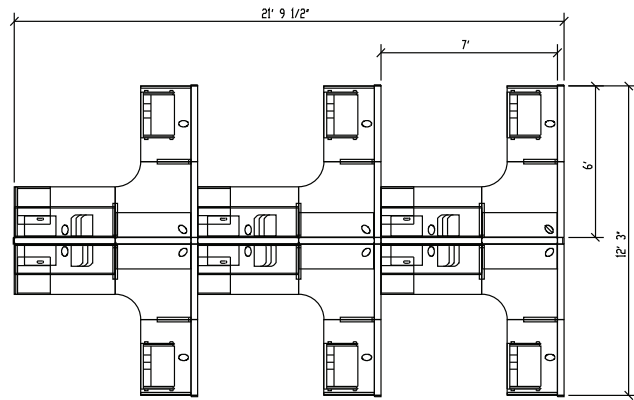

12. Perforated metal tiles used below the worksurface improve airflow throughout the office.

Treat the team well.
With a fully functional workspace.

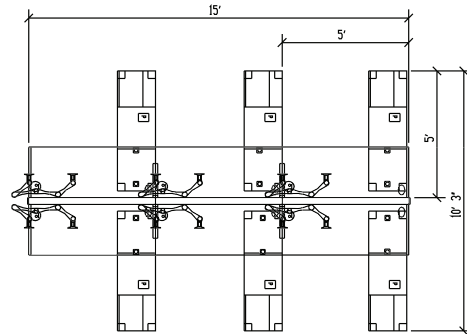

Sona chair by Boss Design.

Enhancing collaboration. Cosmopolitan.

Create a cooperative team environment with the perfect blend of possibilities. Cosmopolitan seamlessly integrates with Up storage, providing an attractive and flexible environment with exceptional aesthetics, inviting shapes, superb organizational capabilities and a minimal footprint.

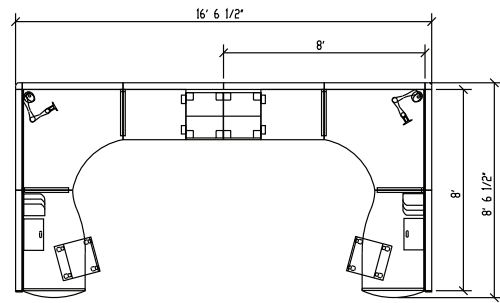

Moneypenny chair by Boss Design.

Space, simplified.

Cosmopolitan monolithic panels boast innovative promise. Crafted to be environmentally sound, panels use eco-friendly, water-based adhesives and powder coat paints. Easily reconfigured, Cosmopolitan monolithic panels accommodate

a growing work force, maximize the furniture investment, and reduce overall environmental waste. In addition, clean and simple lines are complementary to any existing infrastructure.

Cosmopolitan. What you make of it.

Light and air.

7' x 7' open plan workstation

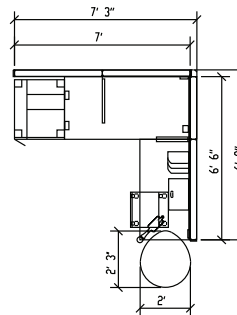

Power and data are at your fingertips with above-worksurface access. Filing options are optimized with a lateral file and mobile pedestal complete with storage space and guest seating. Paper flow accessories keep you organized and lower credenza shelving offers space for storing larger items and personal belongings. Lower panel height provides access to air and natural light.

Storage maximized.

7' x 6' 6" semi-private workstation

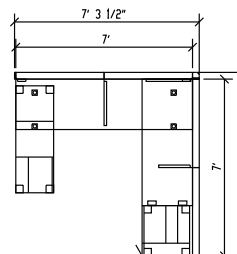

Storage capabilities are maximized with a mobile pedestal complete with filing and convenient options for keeping your daily necessities close at hand, as well as comfortable guest seating and a tower to store office essentials and personal belongings. Power and data are right where you need them with above-worksurface access. A mobile table provides a secondary worksurface for impromptu meetings. Lower panel height provides access to air and natural light.

Welcoming environment.

7' x 7' semi-private workstation

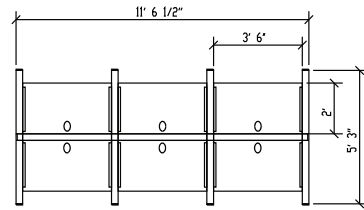

A tower and credenza provide maximum storage with a small footprint. The credenza conveniently provides guest seating. A secondary worksurface provides additional workspace when required. Power and data are within reach and can be accessed above the worksurface. Lower panel height allows access to air and natural light.

Space saving.

3' 6" x 2' 6" call centre/touchdown style workstation

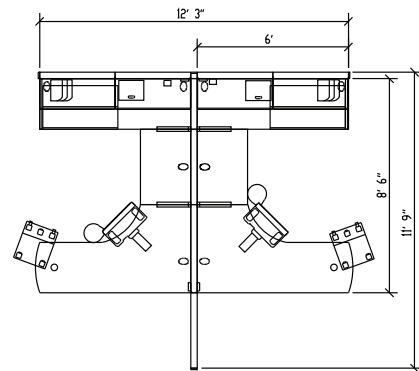

Just the right amount of space to get the job done. Power and data are at your fingertips with above-worksurface access. 53" high panels provide visual and acoustical privacy, and the reduced footprint maximizes use of real estate and is good for the environment.

Inviting with a touch of privacy.

6' x 11' 9" workstation

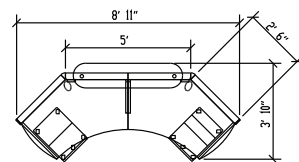

A peninsula worksurface provides ample space for guest seating and comfortably facilitates client meetings. Organization is simple with an accessory bar that organizes paper flow and overhead storage that conceals binders, books and manuals, eliminating unnecessary worksurface clutter. 69" high panels provide privacy for meetings. A mobile pedestal with comfortable cushion provides additional guest seating and storage capabilities.

A sophisticated invitation.

120-degree reception station

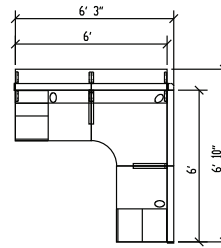

A tempered glass transaction top offers an elegant first impression. The 120-degree worksurface provides ample space to complete multiple tasks. Glazed elements and a modern, light aesthetic provide a welcoming environment.

An inviting environment.

6' x 6' reception station

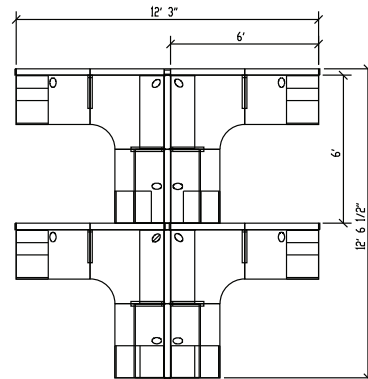

Laminate monolithic panels present a sophisticated, professional aesthetic for a lasting impression. A durable laminate transaction top provides a functional workspace for visitors when required. Storage is maximized with two pedestals to help organize important information and keep it accessible.

Compact with essentials.

6' x 6' semi-private workstation

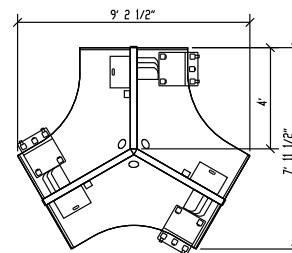

A workspace with all the trimmings. Storage capabilities are maximized with a shelf, overhead cabinet and two pedestal files. Low panel heights provide access to natural light, while a small footprint maximizes use of real estate.

Collaborative environment.

120-degree application

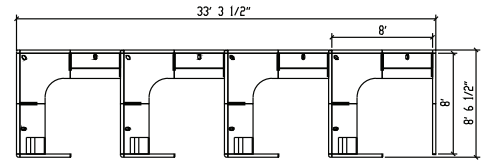

Good for you, good for the workplace, good for the environment. A small footprint maximizes use of real estate and low panel height allows access to natural light and facilitates communication. An accessory bar assists in organizing paper flow and other office essentials, keeping the worksurface free of clutter. A mobile pedestal complete with filing, storage and guest seating adds functionality to this multi-task environment.

Privacy and light.

8' x 8' private workstation

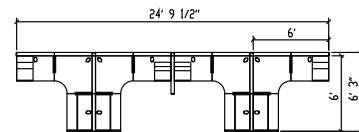

69" high panels provide visual and acoustical privacy. Storage needs are met with an overhead cabinet and pedestal. A glazed stack-on panel allows access to natural light.

Team up.

6' x 6' teaming workstation

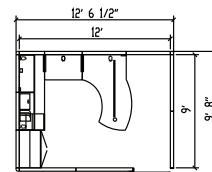

This workspace for individual and team environments with 69" high panels offers visual and acoustical privacy. Stack-on glazed panels allow access to natural light. Worksurface clutter is eliminated with an overhead cabinet and underdesk pedestal.

Moving up.

12' x 9' enclosed executive workstation

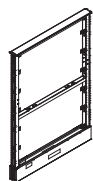

A large footprint provides a spacious area for guest seating and a sliding door gives the option of privacy when required. Plenty of worksurface space for meetings, working and organizing, with an accessory bar that will eliminate unnecessary clutter. Storage potential is maximized with lateral files, pedestal and overhead cabinet, providing enough space for the organized executive. With glazed panels allowing access to natural light, your corner office with a view is just what you ordered.

Cosmopolitan. An overview.

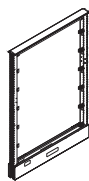

Panel Frames and Connectors

standard panel frame

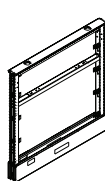

h = 37" - 85"
